

Procurement Specialist

OUR COMPANY:

Denison Mines Corp. ("Denison") is a public company listed on the NYSE American and TSX stock exchanges focused on the advancement of a portfolio of uranium exploration and development project interests in the Athabasca Basin region of northern Saskatchewan. Denison is also responsible for mine care and maintenance of its decommissioned mine sites in Elliot Lake, Ontario.

Denison's flagship project is the Wheeler River Uranium Project (the "Project"), which is the largest undeveloped uranium mining project in the infrastructure-rich eastern portion of the Athabasca Basin region in northern Saskatchewan. The Project is located approximately 35 km north-northeast of Cameco's Key Lake Operation and 35 km southwest of Cameco's McArthur River Operation in the eastern portion of the Athabasca Basin. The Project is accessible by vehicle and is located about 5 km west of Highway 914.

In August 2023, Denison filed (i) the Feasibility Study ("Phoenix FS") completed for In-Situ Recovery ("ISR") mining of the high-grade Phoenix uranium deposit ("Phoenix") and (ii) a cost update to the 2018 Pre-Feasibility Study for conventional underground mining of the basement-hosted Gryphon uranium deposit ("Gryphon"). With the successful completion of the Phoenix FS, Denison has advanced the planned Phoenix ISR project through the technical de-risking process and has already commenced the first phases of project execution. Concurrently, Denison is also advancing the environmental assessment ("EA") process, which is a critical step to securing the approvals necessary to develop and operate a mine in Canada.

The planned Phoenix ISR operation is on track to become the first ISR uranium mining operation in Canada, and has the potential to be one of the lowest-cost and most environmentally sustainable uranium mining operations in the world.

Denison is building the Wheeler Project development team and is looking to attract top candidates who want to be a part of our ambitious development story.

THE ROLE:

Denison is looking to fill the role of **Procurement Specialist**. Reporting to the Procurement Lead, this role provides functional procurement support for the organization, managing the timely and efficient sourcing of a variety of services, goods, and materials.

All applicants must be eligible to work in Canada. Denison offers a competitive compensation and benefits package.

Denison is committed to providing employment opportunities for Indigenous people and members of the communities near where we operate, and encourage applicants who are Indigenous and / or residents of those communities to apply and to voluntarily self-identify the appropriate information in their application details.

OUR IDEAL CANDIDATE:

You have direct experience in remote camp locations and/or overseeing camp operations. You are a well-rounded candidate with good organizational skills, a strong sense of responsibility and demonstrated ability to work in a team environment. You are a critical thinker who exhibits the ability to evaluate and resolve complex problems. In addition, you have:

- Minimum of a Bachelor's Degree in Business Administration or related field
- Supply Chain Canada SMT Diploma or SCMP designation would be an asset
- Minimum of 5 years of experience in procurement
- Knowledge of end-to-end Procurement and Contracts best practices.
- Excellent verbal and written communication skills
- Strong interpersonal skills
- Highly developed negotiation skills

Procurement Specialist

YOUR RESPONSIBILITIES:

- Manage the procurement of products and services
- Research and identify prospective suppliers
- Liaise with internal project teams and maintain strong supplier relations
- Evaluate products and suppliers according to key business criteria
- Manage and maintain contracts with vendors
- Prepare proposals, request quotes and negotiate purchase terms and conditions
- Prepare and issue purchase orders and agreements
- Analyze industry and demand trends and support with the development and implementation of sourcing strategies
- Understand and draft robust contracts capturing all operations, commercial, legal and HSE requirements.
- Monitor supplier performance and resolve issues and concerns
- Manage daily, monthly and quarterly reports
- Coordinate with other departments

Interested applicants should submit their resume with cover letter to jobs.sk@denisonmines.com. All applicants must be eligible to work in Canada. Please include the job title for which you are applying in the subject line of your email application. We thank all applicants for their interest; however, only those candidates selected for interviews will be contacted.
